Live from Lincoln Center Special for PBS

INTRODUCTION

Total Media Productions was founded with the mission of providing the highest quality service with the best crews possible in the most imaginative ways for productions of all types and sizes. From small single camera live streams to full sized productions, we treat each show with the same care and respect.

WHY TOTAL MEDIA

Total Media brings 30 years of live network broadcast experience from network specials, entertainment, corporate, sports and daytime talk. We draw from all our experience to design the best production for our clients. TMP utilizes state-of-the-art equipment for corporate brands, red carpet, network, meetings, and live events – large and small.

SCOPE OF SERVICES

At Total Media Productions, we have the gear for your project: switchers, cameras, audio consoles, microphones, wireless and wired comms, graphics, closed captioning and all the widgets to get you on air. But that is not what sets us apart from other flypack and truck companies. What sets us apart is our people.

We have the technical prowess to execute your vision, with multiple audio/video packages that can be bent into any configuration you need. We know our work backwards and forwards, and only deliver a premium product to our clients.

*Movement by Michelob ULTRA
Remote workouts for Instagram and Facebook*

REMOTE PRODUCTION

As the need arose, we designed and implemented new and innovative production methods for bringing guests together remotely and in mixed environments.
